

Activated carbon filter

Protects against heavy metals, unwanted and toxic chemicals, microbiological pollution (bacteria, viruses, germs and fungi) as well as unpleasant odours and biofouling. The activated carbon filter is ideally suited as a supplement to our PureFlow POOL 3D filter material, for fresh and salt water aquariums, in extractor bonnets in kitchens and bathrooms, dehumidifiers and air conditioners.

Perfect for

- ✔ Filter casings
- ✔ Skimmer baskets and suspended skimmers
- ✔ Aquariums
- ✔ Fountains
- ✔ Garden ponds and streams
- ✔ Living area ventilation
- ✔ Garden & Indoor pools
- ✔ Extractor bonnets + air circulation systems
- ✔ Fish breeding basins
- ✔ Air filtration systems (private/industrial)
- ✔ Process water filtration
- ✔ and many other applications

Advantages that convince

- ✔ Reduces the pollution of the main filter
- ✔ Active against biofouling and the development of microbiology
- ✔ Protects against fungal, insect and mould infestation
- ✔ Reduces cleaning effort
- ✔ Significantly improves bathing water quality
